Invest in a highly profitable custom lodge and/or home ON the Missouri River, with a guest house, where clearly no expense was spared!

The almost 4,000' main house has five bedrooms and four bathrooms each with either real slate or travertine. The kitchen is open and equipped with a cook's dream set-up with a built-in, over-sized double-door refrigerator/freezer, 6 burner Viking range, Miele dishwasher, broken edge exotic granite and custom cabinets. The open dining room has a full wall of stone that overlooks the river. You'll love relaxing in the great room that has a two-way fireplace that is all stone on the interior great room side and a covered deck on the other.

The house is wired for sound to include interior rooms, the media/loft upstairs and outdoors on the deck. One of your 5 bedrooms is enormous and could double as a recreation room with its tumbled stone fireplace boasting a carved fish adornment and high beamed ceilings.
